SHORT · 50 WORDS

Akashic Monk is an independent hip-hop artist from Cleveland, Ohio, and founder of Akashic Entertainment®. Since 2016 the Monk has released 41 records, including the 22-track album *Static Signal*, blending heavy 808s, spiritual lyricism and pop-rock energy with a builder's mindset: code, crypto and gaming. *American Blueprint* arrives Winter 2026.

LONG · PRESS & RADIO

Born and built in the 216, Akashic Monk makes music the Cleveland way: independent, relentless and bigger than the block. The catalog began in 2016 with records like "Simulation" and "Me," grew through the *Road to 2020* collections, and landed full projects in *DarkLight*, *Soul Savior* and *Thoughts of a Wizard*, with collaborators including NoBa'D, DNA88, EDC Jay, I.Am.PJ, Th3 Eye, Flamez, Dmatrix and SquadGod.

In 2026 the Monk shipped eleven new singles and *Static Signal*, a 22-track album, while writing code, making AI-driven music videos, running a crypto build series on YouTube, and building *Order of the Akasha*, a fantasy universe told through music, film and gaming.

Next comes **American Blueprint**, the plan drawn up from the ground floor, arriving Winter 2026.

BARs, BLOCKs AND BLOCKCHAINS.

The story angle: one Cleveland artist running the whole operation, from the beats and the bars to the site, the visuals, the crypto series and the game world.
